Subject: Statement on the Ukraine-Russian Crisis

Dear Citizens and Congressmembers,

Today I am glad to say that the Russian invasion of Ukraine has been met with fierce resistance. On all fronts, the Ukrainian military has battled and slowed down the Russians. I am glad to say that the Russian military has likely not planned one day's objectives. Ukrainian armed forces have halted the advance towards Chernihiv. Ukrainian soldiers have died for democracy. We salute them. But do not feel that the threat is over. Russian troops are still pushing for Kiev and hope to totally conquer Ukraine. this must not be allowed to happen. In recognition of this, I have authorized the banning of all exports and imports to Russia and any contribution of any type to groups with connections to the Russian military or government.
